In recent years, Mentoring System has emerged as a strong response to the plight of students at-risk. Lanka Mahavidyalaya has been practicing mentorship since long from the formation of IQAC, on 2007. It offers a highly-efficient Mentoring system through which a group of students consisting of 35-50 students are assigned to a faculty member at the commencement of the program. Mentors meet their students and guide them with their studies and extra-curricular activities. They also provide advices relating to selection of major, career guidance and personal problems. The mentors act as guides to the students during their

preparation for examinations and projects related activity. The mentoring system ensures that the students adapt to the dynamic learning environment and lead their ways into highly successful careers. Mentoring relationships involve the provision of career, social, and emotional support in a safe setting for self-exploration that results in positive academic and personal outcomes for students.
