Lockdown and Widespread Disruption

- **Economic activities have been severely disrupted** for almost four months: agriculture, manufacturing, construction, trade and commerce, travel and transportation
- **Educational institutions have been closed**
- **Healthcare system has been overstressed**

GMT20200802-040348_Webinar-10_1920x1080

05:59 August 2, 2020

Resource Person Dr Rajib Sutradhar delivered his lecture on migrant and then relates it with labour market. He mentioned that migrant crisis arises from the agricultural crisis. Both the Resource person briefly explained impact of

Covid-19 on reverse migration (urban to rural) of labour. They also provided the solution to stop the reverse migration of labour in their lecture.

Migrant source and Destination

- These migrants emerge from pockets in Dhemaji, Lakhimpur, Majuli, Dibrugarh, Sivasagar, Morigaon, Kokrajhar, and Goalpara regions.
- Some of these areas are known as Char areas (25 lakh people live), 80% of them live below official poverty line.
- Much of these migrants go to Delhi, Chandigarh, Mumbai, Bangalore, Chennai, Hyderabad and Ahmedabad, where they are engaged in industries such as spa, saloon, gym and restaurant and resort, plywood, wellness and nursing, construction, plywood and plantation.
- Many of these industries will take longer time to recover as they are not essential services.
- Poorer state like Assam has less capacity to deal with and absorb them into jobs, specially with flood looming over our head.
